I will go along if it's Funny. What are you doing there?

Oh! A cat is flying away!

Do you, a national space researcher, have nothing better to do?
There are no projects right now ~
Until spaceship Yoonkwan lands, you can say 'all stop'?
Speaking of Yoonkwan, Does...
the major general know that you are planning something?

I have no idea what you are talking about.
Once it lands, you are going to get orders From the higher ups.
And don't you want your own people to be sitting in the control room?
휙

"own People"? Are we in some kind of rivalry?
It's a serious matter. You will regret it.

Thanks, but no thanks.
I'm warning you ~

WHAT IS ALL THIS?!
Wow ~

Dr Ma What is all this?
This is..

Hey brother!

Main database cable wasn't connected to spirit! Because of that, discovery of the century is gone!!
Discovery of the century?

I SAW AN ALIEN!!
IF ONLY I'D RECORDED IT!
Alien?
I SAW IT WITH SPIRIT LAST NIGHT!
So it looked like
A person with pointy ears.

So you used the robot without supervision?
소 곤
I didn't do it on purpose! And that's the important thing..

Heh..
Come.

Heehae!
Heehae Ban!

This stuff!

If you're done patrolling, you were supposed to return it!

You do it For me, Mario. I'm not in a good mood right now.

Next time, return once you Finish patrolling.
Yes sir.
Ah!

This distortion imaging...
It was broken so I was going to send it to get repaired.
I... I just saw it there and used it...
And it worked? I heard that hiding might not work.
Hm... well it's good that it worked Fine. Check for the labels next time.
Ok..
Oh!
Commander Quidata wants to see you.
What?!

Space Union Headquater Unit, Heehae Ban!
What is your order, Commander Quidata?!
.....
Why are you suddenly like that? Did you do something?
N...no, comander!
Hm... although we are in military, I can't get used to it. So can you act normaly?
Yes ma'am!

It's an important issue so listen careFully.
!!!
Y...yes... continue please...
Hmm? You okay?
A meeorite fell into Earth's atmosphere and spectrum test showed that it contains Tanium.
Tanium?
The fuel for our interstellar spaceship engine.

Heehae. I need you to go down to Earth and look into this.
I'm going to Earth?! Me?!
Am I really going?!
A space Union Unit must never allow direct contact with an undeveloped civilization to keep secret about developed civilizations in space.
Interfering with the exchange with undeveloped civilization will be considered as a Felony. Exposing yourself and/or about the space civilization will be considered a major crime and will be dealt with

You have two things to do on Earth.
First, check if the meteorite has any tanium, or check the meteorite for any spaceships. If you find it, capture them and bring them back.

Second. Find out about how much Earth has knowledge in space. Collect something here and there. Be careful not to get any contact.

I'll go right now!!

There's not that many people to have it but I'm sure it'll come in 2-3 days...
Then I'll buy this For now.
You can stop bluffing now!
How was I supposed to know it wasn't connected?!
I knew you were going to fool around, so I disconnected it!
Why are you playing around when you just joined?!
Not this time! Believe me!
Say something believable and I'll believe it!

I will Find it again!!
Payment type?
Single payment.

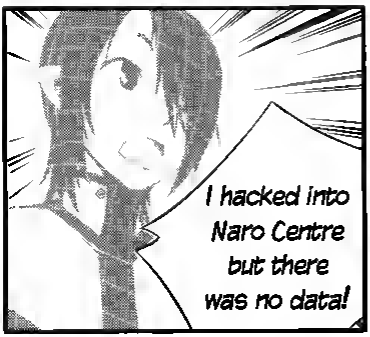
You were the culprit?! Fine! I'll just do it myself!
You think DB is the only proof? I will find it and show it to you!

Heehae!
A problem!



I hacked into Naro Centre but there was no data!

Keep looking. I'll go to Earth and look for it too.
What?! Earth?!
